### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Herbert on August 10, 2005.

**AMENDMENT TO CLAIMS:**

Claim 13 (currently amended). A method according to claim 9, wherein user clients comprise document or web browsers, wherein the retrieval information comprises a web page, and wherein the information source servers comprise web servers,~~an~~.

***Allowable Subject Matter***

Claims 1-15 are allowable over the prior art of record.

The following is an Examiner's statement of reasons for allowance:

Claims 1, 2, 6 and 12 are allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a mediator between search engines and source servers deciding which received indexes to distribute to which retrieval engines, as claimed in addition to the other claim provisions.

Claim 8 is allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a mediator between search engines and source servers, deciding which retrieval engines are suitable to receive pushed index information, as claimed in addition to the other claim provisions.

Claim 9 is allowable because the prior art of record or that encountered in searching for the invention, fails to disclose or suggest a mediator program to push different push-programs to different types of information source servers wherein each push-program responds to detected changes in an information source server by pushing to the mediator program indicia of the

differences, and sending the indicia of the differences to retrieval engines, as claimed in addition to the other claim provisions.

Claims 3-5, 7, 10, 11 and 13-15 depend from claims 2, 6 and 9 respectively, and are therefore allowable.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to illustrate the state of art with respect to mediators, push programs and indexes:

U.S. Patent No. 5,892,909 of Grasso et al.

U.S. Patent No. 6,188,695 of Przybysz
